

Vaporizer Rental / Reservation Request Form

Rental requests must be made at least 2 business days in advance.

PI will be billed for use of vaporizer the 21st of each month.

Rental unit will be setup in location requested. Setup includes: filled isoflurane vaporizer unit with flowmeter, and F/air Canister, 1 oxygen tank, induction box, circuits with mask, and a recirculating heating pad. Additional items needed will be the responsibility of the PI.

Vaporizer rentals for use in laboratory space outside CAR will be picked up the next business day. If an alternate date is needed, you will be billed for each day until scheduled pick up.
